

# GROUP: reCurse

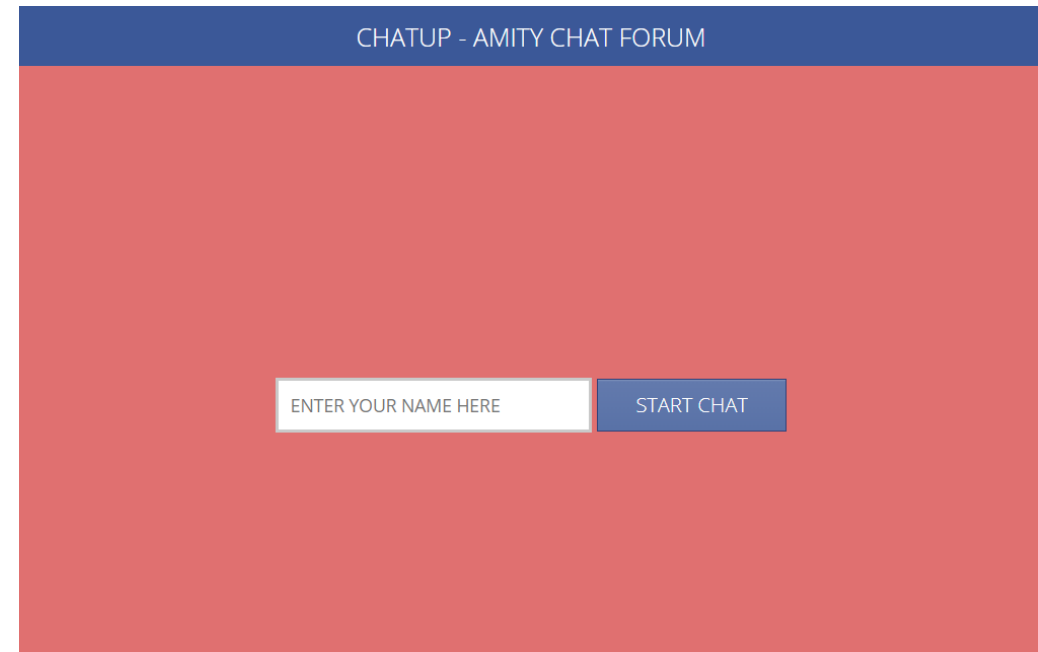

[Raghav Khullar, Utakarsh Aggarwal]

A chat system made for students so they can discuss about various topics without identity disclosure

A chat system  
made on  
online web  
host through  
HTML and  
PHP

This chat system tackles the problem of less participation of students in general discussions, here students are given a chance to discuss anything openly without the problem of identity disclosure

The image shows a web interface for a chat forum. At the top, there is a dark blue header bar with the text "CHATUP - AMITY CHAT FORUM" in white. Below the header is a large red rectangular area. In the center of this red area, there is a white input field with the placeholder text "ENTER YOUR NAME HERE" and a blue button with the text "START CHAT" in white.
